Decision Dynamics Reports 3rd Quarter of Record Revenue

First Quarter of Positive Cash Flow and Net Income

Calgary, AB – April 30, 2007 Dynamics Technology Ltd. (Decision Dynamics; TSX-V: DDY), a provider of operations management software to the energy industry, today reported positive cash flow and earnings for the first quarter of 2007. Sales were up to about \$3.2 million and Net Income \$260,000 for the quarter.

Sales have grown for four successive quarters with a year over year growth rate of 83%. In the fourth quarter of last year, Decision Dynamics refocused its product development on business operations solution for the energy industry and implemented an efficiency program to reduce monthly expenditures. "The programs we initiated last year are now paying dividends and we are pleased to see these very positive financial results." said Justin Zinke, Decision Dynamics Chief Executive Officer, "We are seeing continuing customer interest in existing products in Canada and strong growth in the US sales pipeline."

Financial Highlights

\$'000 except per share amounts	Three Months Ending			Three Months Ending	
	Mar. 31, 2007	Dec. 31, 2006	Sept. 30, 2006	Mar. 31, 2007	Mar. 31, 2006
Operating Results					
Revenue	3,179	2,776	1,865	3,179	1,733
Gross profit ⁽¹⁾	2,337	2,067	1,017	2,337	1,006
Gross margin ⁽¹⁾	74%	74%	55%	74%	58%
Net Income (Loss)	260	(991)	(1,425)	260	(1,340)
Basic earnings (loss) per share	\$0.01	(\$0.02)	(\$0.02)	\$0.01	(\$0.03)
Fully diluted income (loss) per share	\$0.01	(\$0.02)	(\$0.02)	\$0.01	(\$0.03)
EBITDAS ⁽²⁾	576	(400)	(910)	576	(1,018)
EBITDAS ⁽²⁾ before restructuring costs	576	1	(910)	576	(1,018)

Full year license revenues for the three month period ending March 31, 2007 compared to March 31, 2006 are up 68%. Services have increased over 100% due to the increase in service personnel plus more chargeable projects. Sales have grown every quarter since the first quarter of 2006.

As a result of the staff reductions and other cost cutting measures implemented in 2006, expenses for the three months ended March 31, 2007 compared to the same period in 2006 were down about 22% particularly in corporate and administrative areas.

Growth in sales combined with a reduction in expenses has resulted in Decision Dynamics first profitable quarter with positive cash flow and positive earnings.

Additional information regarding the Company is available on SEDAR at www.sedar.com.

(1) "Gross profit" is revenue less cost of sales and gross margin is gross profit divided by revenue expressed as a percentage.

(2) "EBITDAS" means earnings from continuing operations before interest, taxes, depreciation, amortization and stock based compensation. It may be derived by subtracting stock based compensation from the subtotal titled "Income (loss) before the undernoted" on the Statement of Operations and Deficit. . "EBITDAS before restructuring costs may be derived by adding restructuring costs to "EBITDAS" thereby eliminating it from the computation.

Gross profit, gross margin and EBITDAS do not have a standardized meaning under GAAP and may not be comparable to the same terms as used by other entities in the industry; however, the Company believes they are an important measure of performance and indicator of success for software businesses and are relevant to readers within the investment community

About Decision Dynamics Technology Ltd.

Decision Dynamics Technology Ltd. is a leading provider of innovative knowledge capture, workflow management, reporting and analytics software solutions to the energy sector, including major oil and gas and electrical power companies. Its flagship products include Oncore, a project cost management solution that provides real-time cost information, contract validation and approvals for operations management and capital projects; and Wellcore, a well lifecycle management solution that provides oil and gas companies with business visibility and operations agility. The Company has also developed X-Core, a patent-pending, fully integrated, end-to-end data modeling and application development system that can be leveraged across vertical markets.
